INTRODUCTION

This report has been written to introduce you to the concepts of astrology and how to get started with your natal chart. Astrology is a complex and meaningful science which takes years to study and apply successfully; however, we would like to whet your appetite with this report, and encourage you to deepen your understanding through other means.

Astrology is a study of the connection between planets and life on earth. It is based on a concept that energy patterns form between other planets and earth; and that these energies affect our lives as individuals and communities.

An astrological chart, also known as a horoscope, natal chart, or birth chart, records the relationship between the planets and the Signs of the Zodiac. Charts can be calculated for the birth of a person, a community, an event or anything that seems momentous. The horoscope is as individual and unique as a fingerprint.

When using these interpretations, please bear in mind that, inevitably, every chart will contain some contradictory influences, and as a result certain interpretations of different items in the same chart may seem difficult to reconcile. However, this may still be an accurate reflection of your chart, as it is likely that you do experience conflicting desires, events and circumstances in your life. Usually it is the responsibility of an astrologer to synthesise these apparent contradictions in order to present a cohesive and meaningful interpretation of the dilemmas of the chart.

Please also be aware of the fact that each person has positive and negative influences in the chart, and therefore in their lives. The challenge is to accept and overcome the negative influences, so that we can successfully focus on the positive traits. This report outlines both influences, and therefore parts may be difficult to accept. Any advice given is meant to be an aid to a person taking responsibility for their own lives. The ultimate decision rests with each individual. The author and publisher accept no liability for any adverse effects of this report.

LIFE GOALS

*If you would hit the mark, you must aim a little above it;
Every arrow that flies feels the attraction of earth.*
Longfellow, *Elegiac Verse* 1880.

The Sun

Just as the Sun is the centre of the earth's Solar System, so does the Sun play a vital role in your life on earth. Your life goals are linked to your Sun - its Zodiac Sign and its position in your chart. Contrary to popular belief, the Sun isn't the only planet to be considered in a person's chart, but it is an important component. The Sun gives you an indication of how you can shine in your life. You will feel truly alive when you're living the traits indicated by your Sun. Therefore it's likely that you will spend much of your life on a journey to self discovery, aiming to incorporate these traits into your life. Understanding the energy of your Sun is a good starting point to understanding yourself and your purpose in life.

The Sun is in the 8th House

Your Sun is in the 8th House of your birth chart meaning that the processes of birth and death play a prominent role in your life. Of course this is true for many people, but whereas other people may welcome a birth or grieve a death and then get on with their life, the birth and death of loved ones affects you so deeply that you're likely to change the course of your life as a result. You're an intense person, who likes to bypass the superficial side of life and delve deeply into the meaning of life. Many people feel uncomfortable discussing intimate topics such as birth, death and sexuality, but you're not so reluctant. In fact it's important that you delve into these topics rather than push them to one side. The most significant death in your life is likely to be that of your father, who is an important figure in your life. You are also likely to welcome the birth of children as a life-enhancing experience. Your experiences you're your father deeply affect your style of parenting. Whether you have a positive or negative relationship you're your father, your role as a parent is an important avenue for you to express the very depths of

your nature. Trust is a key feature of your life. While you may have difficulty trusting some people, it's important that you've someone close to you who knows you intimately, someone with whom you feel comfortable talking about your innermost thoughts and feelings. You need to trust and follow your own intuition. If you do this then you're likely to benefit through your primary partnership, gaining in personal fortune either through your partnership or after the partnership has ended. You're also likely to live a long and fruitful life, although you may go through critical life and death periods.

The Sun is in Gemini

Your Sun is in the Zodiac Sign of Gemini indicating that you're curious, lively, versatile and talkative, with a need for constant stimulation. You're adept at keeping your finger on the pulse of several things at once, like a juggler. Many times you weave your way successfully and skillfully through your many activities leaving others in somewhat breathless awe of your abilities. However, there are also many times when everything comes tumbling down around you and you're left to pick up the pieces which have been scattered throughout your life. Others are then disturbed to note your lack of organization. Life is temporarily in disarray. It is at times like these when the clever Gemini person asks for help. Communication one of your strengths in life, taking the form of lively conversation, letter writing, study, numerous telephone calls or even travelling to various destinations to satisfy your curiosity. You've a tendency to liven up even the quietest environment, sometimes even introducing a chaotic element. Life is never dull around you. Your greatest enemy is boredom, and you will be resourceful in your pursuit of activity, although if all else fails you may turn to the radio, television and computer games. You've a keen intellect which can be applied to creative pursuits such as acting, writing, publishing, networking, and teaching. Your biggest hurdles to achieving your goals in life are making up your mind and focusing your energy, as you've such a difficult time deciding between all of the different options and then concentrating on the task at hand. You may also be a natural born comedian. You certainly know how to play. UK author J M Barrie's characters "*Peter Pan*" and "*Tinkerbell*" come to mind in association with the Gemini person's delightful charm and wit.

Jupiter

The planet Jupiter also tells you about your goals in life, in particular the areas in which you are likely to succeed. Jupiter is the planet of expansion, abundance and wisdom. Ancient astrologers believed that the planet Jupiter had a greatly beneficial effect on a person's life.

Jupiter is in the 9th House

Jupiter is also in the 9th House of your chart signifying that international affairs hold a certain fascination, challenging your view of the world and giving endless food for thought. You're interested in international economics and politics, religions and cultures of other countries, archeological findings which uncover the ways of life of ancient civilisations, and awe-inspiring overseas natural wonders. Discoveries of other galaxies and universal phenomena also excite your mind. You like to travel overseas to experience first-hand the attractions of other countries, but you're also happy to study in a college or university. You are likely to attract good fortune on your travels. Religion and philosophy also appeal to your enquiring mind. You're full of plenty of philosophical and religious ideals of your own, but you also like to keep an open mind. You're a wise person, basically optimistic about the future of the world. It's even possible that you possess prophetic abilities.

Jupiter is in Leo

You've the planet Jupiter in the Zodiac Sign of Leo in your birth chart indicating that you are benevolent, generous and fun loving, full of plans and schemes which you hope will make the world a better place. You've the skills and the will power to carry through these plans. You're a sincere and honest person who is attracted to a noble cause, and who isn't afraid to run the gauntlet of difficulties encountered along the way. Your enthusiasm and courage are contagious and you benefit from your associations with other people. They warm to your generous nature and obvious wisdom. You're also full of energy and vitality, generally benefiting from good health. Children also play a large role in your life, whether they be your own children or other people's. Teaching children may be a prominent part of your life. You also have a keen interest in culture, perhaps even displaying talents in the arts. Certainly your sense of grandeur could be put to good use in the theatrical or artistic world.

Jupiter is Trine Saturn

The planets Jupiter and Saturn are making a beneficial aspect in your birth chart indicating success in achieving your life goals. You're wise and perceptive, with a talent for creative ideas and the ability to put those ideas into action. You're blessed with a wonderful sense of timing, knowing exactly when to make the right moves to achieve a desired result, whether it be for yourself or for a group project. You've just the right blend of optimism and realism. For these reasons you can enjoy success in self-employment or be a valued member of a team. Whether you're self-employed or not, you work well within a structured system and therefore can do well in business. It's likely that both conventional and unorthodox approaches to life appeal, as you understand the advantages in learning from tradition, as well as the benefits of trying new ideas. You've a chance to be very successful as you're neither profligate nor mean, but have a balance. This is a very fortunate aspect. If you don't take your abilities for granted but use them wisely you can gain great success in life.

Jupiter is Semisquare Uranus

The planets Jupiter and Uranus are making a difficult aspect in your chart indicating that your unusual approach to achieving your goals can sometimes land you in hot water! You're keen to change things in this world because you can see where traditional methods have failed. You see no reason to continue with out-moded traditions, preferring unconventional and new ideas. The trouble is that at times you lack tact and diplomacy. You're impatient to see results, not realising that your very impatience is jeopardising your success. Repeatedly throughout your life, experience is likely to teach you that success isn't an overnight accomplishment. Results don't always come quickly. Perhaps you could remind yourself of the motto "all good things come to those who wait". It's worth persevering with your goals and taking a positive approach to overcoming the obstacles in your life. You can achieve a great deal in the world through your innovative and unusual methods. You may also benefit by joining with like-minded individuals, perhaps in the fields of metaphysics, unorthodox religion or science.

HOME

*Perverse and foolish oft I strayed,
But yet in love he sought me,
And on his shoulder gently laid,
And home, rejoicing, brought me.*
Hymn, *The King of love my Shepherd is* 1868.

The Moon

Astrologers from different schools of thought allocate varying meanings to the Moon in a birth chart. Ancient astrologers say that the Moon changes its nature according to its phases, and merely passes on impressions from other planets rather than directly influencing a person's life. However, modern astrologers tell us that the Moon depicts a person's roots, our home and family. They say the Moon also shows our habitual nature or subconscious patterns of behaviour which stand in the way of achieving our life goals. While the Moon can show us our strengths, it can also depict our weaknesses which need to be overcome in order to be successful in life.

The Moon is in the 2nd House

The Moon is placed in the 2nd House of your birth chart suggesting that you seek emotional security through accruing possessions, although this can be frustrating at times because your personal fortunes have a tendency to fluctuate during your life. Consequently, you face periods of economic insecurity when your fortunes suddenly change. Fortunately you've the inner resources to adapt to these changes in income and usually you gain rather than lose money. However, you need to be wary of other aspects in your birth chart which could indicate failing fortunes. Your finances are closely tied to your work, and you're likely to benefit from a job that is connected with either water, or with the public at large rather than one where you've little contact with other people or contact with only a few people. You may also work in a profession that caters for people's needs such as the hospitality industry or child care. Your personal finances may also receive a boost through a prominent woman in your life, perhaps your mother or her

side of the family.

Your basic need for material and financial security influences your choices. For instance you seek emotional security through accruing possessions, building a safe foundation and gathering reliable friends and family. Money in the bank may be more important to you than sharing your resources. When your own resources are threatened then you are likely to be quite reactive. For instance if your roof starts leaking then you are likely to be quite alarmed, wondering why those around you are not so concerned. This is because your security is threatened. Debt is something that you rarely consider. You would rather have the money to pay for an item. Your credit cards definitely have a lower limit than other people's (unless you have negative influences in your astrology). You may be very good at financial planning if you have other positive monetary influences. However, your basic lesson in life is to focus on emotional rather than material security. As the saying goes, "How many U-hauls do you see following a hearse"? Build up your self-esteem; establish values of love, compassion and communal care. These things help give you a firm foundation.

The Moon is in Sagittarius

With the Moon in the sign of Sagittarius you've an emotional need for adventure and independence, and will feel all of the impatience of a horse being held on a tight rein if your adventurous nature is thwarted. This is despite the fact that you may be headed in the wrong direction. The destination doesn't really matter, for you've an instinctual urge for travel and exploring - any path will do, particularly when you feel the urge to escape from the stresses of daily life. Sometimes your explorations involve travelling around the globe, while at other times you're content to explore the academic halls of knowledge. Philosophy and religion may particularly appeal. Once your quest for mind-expanding knowledge is somewhat sated, you may seek to change from the role of enthusiastic student to inspiring teacher. Fun is also important. When feeling under stress, you like nothing more than to go out and enjoy yourself. Anything which offers light relief will do. This can range from discussing the philosophical side of life over a cup of tea with a friend, to taking up a new hobby or taking flight to distant lands.

The Moon is Trine Saturn

Much of your adult life has been spent trying to overcome the difficulties that you faced as a child in your home and family. Astrologically speaking this is because the planet Saturn is contacting the Moon in your birth chart. Ancient astrologers believed that the planet Saturn had a negative influence in a person's chart. In your case your early home life has been adversely affected. The extent of this effect depends largely on other influences in your chart. In some cases it can mean that your childhood home lacked spontaneity and warmth, but was well-organised and structured in a manner which helped you to feel supported and safe. However, it's more likely that circumstances in your family led to you feeling that home was a cold and unsupportive environment. This could have been one painful incident such as the loss of a family member, or it could have been the result of years of hardship. It's possible that one of your parents, perhaps your mother, was a strict and severe influence, unable to show you the affection that you felt you deserved. As a result it's likely that you're somewhat shy as an adult, lacking in self-confidence and sensitive to criticism. You may be emotionally reserved. Perhaps you decide to live in solitude rather than risk the lack of affection and warmth that you felt as a child. As you grow older, you're likely to become more confident in your personal relationships. You learn about personal relationships through life experience, and your loved ones also become more mature. As a result your relationships with other

people become more stable and satisfying as you grow older. You also develop an inner self-confidence which helps you build firm foundations in your life and achieve your ambitions, as well as loving family relationships. You work solidly to build yourself a secure and firm footing, earning the respect of those around you. You can succeed in business and in your career, particularly through being noticed by your superiors. You may also benefit through investments in land and property.

The Moon is Square Uranus

The Moon and the planet Uranus are connected in your chart suggesting that your home life is unusual and changeable. It could be that you've difficulty settling down in one place, or that you live in extraordinary surroundings. In some way your family life is unusual. This isn't necessarily a negative experience, although it could be upsetting. Perhaps you, or a member of your family, have an unusual hobby which has taken over the household, or necessity requires that your family often changes residence. The erratic nature of your household probably stems from your childhood experiences. Perhaps your family was different from traditional families, or circumstances led to emotional upsets in the family home. It's possible that you suffered from a sense of insecurity as a child as a result of changing family life. Your mother, or an important mother figure, may have been an unusual or unstable influence in your early childhood. A continuing sense of a lack of security in your home and family may be a source of emotional distress, as you struggle to come to terms with conflicting emotions. However, you're a resourceful, inventive and independent person, and will eventually learn to blend your individual need for excitement and stimulation in the home environment with a need for comfort and security.

The Moon is Square Pluto

The Moon and the planet Pluto are connected in your birth chart indicating that you're an intense and emotional person, prone to extreme highs and lows. You love drama and intensity, because these give you a sense of being deeply connected to your loved ones, and to the world. It's likely that your family and home life are periodically emotionally volcanic. This can be problematic if other members of your family don't desire the same level of intensity, particularly if they're seeking peace and quiet at home. If this is the case your needs are directly opposed to your loved ones', which may not concern you, but could result in dramatic changes in your personal life. This is also a problem because you've a deep sense of commitment to your personal relationships, and feel betrayed if others don't share this commitment. It's likely that your need for emotional intensity originates from an early childhood experience, probably linked with your mother or another strong woman figure. Your relationship with your mother is likely to be immersed with intense feelings, perhaps even stemming from a life-or-death situation. You may feel positively or negatively about your mother. Either way your feelings are likely to be strong. You're a resourceful person, and can rely on your own resources to solve most problems. You need to find a creative outlet for your intense nature, something that will totally absorb your attention. Perhaps you would enjoy property development, or renovating your house. You're a powerful person with leadership skills, and a need for a challenge.

EDUCATION AND COMMUNICATION

*There is no such whetstone, to sharpen a good wit
and encourage a will to learning, as is praise.*
Roger Ascham, *The Schoolmaster* 1570.

Mercury

Our academic schooling and learning through life experience are linked to the planet Mercury. This planet stands for the intellect, common sense, cold reason, commerce and business. It tells us about our communication and learning habits and our modes of thinking.

Mercury is in the 9th House

The planet Mercury in the 9th House of your chart signifies that you're keen to explore the realms of knowledge - anything which expands your mind and gives you an idea of the bigger picture of the earth and its activities. In fact why limit yourself to the earth, when there are whole galaxies out there waiting for exploration. You're not really interested in discovering more about life's details, rather you're curious about the bigger picture. "What makes people act the way they do?" How did ancient civilisations differ from modern ones"? "Is there life on Mars?" and other such questions are likely to be intriguing. You've a natural ability to expand your thinking through study, reading, travel and perhaps writing. You're fascinated by foreign cultures and religions, and are keen to experience the joys of foreign lands first-hand. For this reason you're eager to travel abroad, and perhaps even study in overseas universities or schools. You've a keen and studious mind and are capable of developing your intellectual abilities. It's likely that you spend at least a few years studying at an institution of higher learning. Religious topics may also hold an appeal, although you're likely to be interested in studying more than one way of life rather following a single religious path. Publishing, law and philosophy may also appeal as areas to explore.

Mercury is in Cancer

The planet Mercury in the Zodiac Sign of Cancer indicates that when you're in tune with your emotions and thoughts, you're a highly intuitive person capable of communicating with clarity and compassion. However, at times you find it very difficult to find a balance between your head and your heart. Your emotions are telling you one thing, and your intellect is telling you another. During these times you can be quite erratic in your communications with other people, and can benefit from spending time on your own to make a decision. Education can be difficult unless you're thoroughly at home with your subject. Otherwise you've difficulty concentrating. You place importance on keeping the communication lines open with loved ones, particularly within the family, and may even find that you're at the centre of family communications. This is wonderful when you're busy organising a happy family occasion, but not so enjoyable when someone you love is experiencing a crisis. You do worry so much about your friends and family. On the positive side you enjoy collecting information about your family and its background. For instance you may like to collect family photos or study family history.

Mercury is Sextile Uranus

The planets Mercury and Uranus are connected in your birth chart indicating that you've an incisive and ingenious mind. You enjoy progressive topics in your studies and your communications with other people. In fact you may be ahead of your time in your thoughts, ideas and opinions. You're generally successful in your studies because you're able to communicate your original ideas with ease. Creativity and intuition are second nature. You're an independent thinker, who likes to be given the freedom to express your ideas. In fact woe betide anyone who tries to keep you quiet or change your mind. You make impulsive decisions, some would say rash, but generally speaking you tend to land on your feet. Your projects tend to reflect your individual flair, and stand out from the rest of the class or society. Writing, publishing, advertising, science, astrology and electrical affairs may all be of interest, although any unusual subject will catch your attention.

Mercury is Trine Neptune

The planets Mercury and Neptune are making favourable contact in your chart suggesting that you've a fertile imagination which, if encouraged, can lead to success in education, communication and any creative projects. You're receptive to new ideas and have a resourceful mind. You may also be inspired by the beauty of nature and the expanse of the ocean. Although at times you can seem a little vague, it's more likely that you're lost in a world of creative thought. If left to your reflections, then you're likely to express your thoughts in an artistic or creative manner. This could be through art, poetry, literature, story-telling, or music. It's possible that you possess genius in one of these fields. You're also likely to excel in medical or spiritual circles, where your heightened sensitivity to other people can be truly appreciated. You're more likely to follow an unconventional, rather than orthodox, path if you become involved in medicine. This is because you're attracted in psychic and spiritual phenomenon. In fact you may possess psychic gifts in the form of clairvoyance, psychometry, crystal gazing, trance and inspirational speaking and writing, and prophetic dreams.

Mercury is Square Mars

The planets Mercury and Mars are combining in your chart in a manner which suggest that you and your communications with other people tend to be fiery. This can be positive, particularly if you're a spokesperson for a group or person with a cause. You've good intellectual powers, a shrewd and clever mind. However, you're impulsive and

quick-tempered, and it's more likely that you spend much of your life mopping up after misunderstandings. Your own perceptions of yourself may be that you're enthusiastic and perceptive, but others can see you as aggressive and critical. Without realising it you easily create opposition from other people through your impulsive actions or sharp tongue. You're talkative and enjoy a fiery discussion, but inadvertently you're driving others away and forcing them to adopt your opinion. It's also possible that you're quick to take offence, believing that others are criticising you when it's you who need to learn compromise. For these reasons you may have difficulty in your early childhood education and schooling, and indeed until you've learnt restraint and tolerance. This is particularly true of risky ventures, which tend to attract your attention. You need to be more cautious. Otherwise you're likely to suffer loss through a rash of business deals, law suits and dodgy contracts. You may benefit from an interest in sports, the military, and business.

RELATIONSHIPS

*Let me not to the marriage of true minds
Admit impediments. Love isn't love
Which alters when it alteration finds.
Shakespeare Sonnet 116.*

Venus

The planet Venus tells about love and relationships. It reveals the type of relationship we value, and what we are seeking from our most intimate relationship, as well as how we like to show our love. It answers questions such as, are we attracted to strong, sensual and intense relationships? Or do we prefer some freedom and independence? This planet also depicts how we like to relate to our environment and other people, not just our primary partner, and how much importance we place on money and resources.

Venus is in the 10th House

When the planet Venus is placed in the 10th House of your birth chart professional relationships are important. Success and honour are likely to favour your doorstep. Both your career and your primary relationship are favoured by this beneficial placement of the planet Venus. Depending on other influences in your birth chart, you succeed in your professional ambitions and in attracting a primary partner of high status. It's possible that you marry above your station. You enjoy pleasurable professional relationships, particularly with women, and can create a harmonious and comfortable atmosphere in the workplace. This leads to greater productivity, either your own or other people's. Your professional attitude to work, and harmonious working relationships, usually results in good promotional prospects and increases in salary. Your career may be linked with decorating, beauty products, women's interests, personnel management or any field that requires teamwork. The planet Venus is considered to be in a powerful position in the angular 10th House of a birth chart, meaning that you're likely to succeed in your ambitions.

Venus is in Leo

With Venus in the Sign of Leo you're affectionate and passionate in your primary relationship, enjoying a sense of play and romance. You're likely to ardently pursue your partner basking in the delights and pleasures of love, particularly in the first romantic stage. Your partner is likely to benefit from your generous and thoughtful nature, enjoying being the recipient of your spontaneous gestures. However, you do like your loved one to show an appropriate amount of appreciation, and your enthusiasm for the relationship is also likely to wane if your loved one doesn't return your affections in full, also showering you with gifts and attention. With the right person you'll take great pride in the relationship, eager to share your happiness with your friends. You enjoy attending social outings where you can take real pleasure in the company of other people. Anything that provides entertainment and fun will suffice, although you may prefer attending arts activities, such as dance, theatre and art galleries. Depending on other aspects in your birth chart, you may be extraverted or introverted in your relationships. Either way it's difficult for others to resist your joyful approach to relationships, and as a result you're likely to benefit through your relationships with other people, in particular through people holding high places in society. You need to make sure that you don't fritter away the gifts that you receive from others, as you're generous by nature, and also have a tendency to be extravagant.

Venus is Trine The Moon

You enjoy comfortable relationships with other people because of the favourable combination of the Moon and Venus in your birth chart. A charming and prudent person, you enjoy the company of other people, and they respond favourably. You're likely to enjoy success in your primary relationship, choosing someone who feels comfortable and companionable. You're also likely to benefit from your relationships with women.

Venus is Trine Saturn

The planets Venus and Saturn have combined in your chart indicating that you're seeking commitment and security in your primary relationship. Positively speaking this can be a rewarding, long-term relationship with someone trustworthy and reliable. You're faithful and loyal, a dependable, stable and dutiful partner. You value a long-lasting relationship, and are willing to take your time in establishing a permanent partnership. As a young adult you may favour a traditional marital relationship, complete with a formal ceremony and traditional wedding vows. This could change later in adulthood, when you're more likely to consider commitment in other forms. You're likely to achieve your objective of a worthwhile, long-term relationship after careful consideration and planning. On the other hand if you're not careful you may become involved with someone who tries to control your movements and behaviour. Depending on other influences in your chart you may be shy and inhibited in your personal relationships, and be fearful of standing up for your rights. One of your parents may have been too strict, eroding your confidence and ability to make your own way in the world. Consequently you fear expressing yourself, particularly in intimate relationships, and harbour feelings of being unattractive. While your personal relationships may prove difficult you've the ability to form good business partnerships. This is probably because business partners don't require intimacy or emotional vulnerability, which you find frightening. It's also possible that you're attracted to someone much older or perhaps your primary partner is also your business partner. The good news is that once you overcome your feelings of inadequacy you've the ability to form secure and long-lasting relationships based on firm foundations. As your confidence grows you may also enjoy organising social occasions.

MOTIVATION

Dimidium facti qui coepit habet: sapere aude.
To have begun is half the job: be bold and be sensible.
Horace, *Epistles* 65- 68BC.

Mars

Mars is the planet that tells us about our assertion and drive. It tells us what motivates us and what desires drive us most powerfully. Are we ambitious for professional power, or do we desire a meaningful relationship? Do we pursue our desires aggressively? Or do we sit back, lacking the confidence to achieve our ambitions? These are the types of questions answered by the qualities of the planet Mars in our chart.

Mars is in the 12th House

With Mars placed in the 12th House of your birth chart at times you're uncertain of the future, with vague fears of danger or treachery. If you voice these fears, then others may feel that you are suffering from paranoia. However, it's true that you can suffer at the hands of secret enemies and that you would do well to avoid dangerous situations. This placement of the planet Mars in your birth chart does indicate that danger and treachery can feature in your life. It can also mean loss of reputation. However, these can be avoided. You need to live your life with the utmost integrity, avoiding all criminal elements of society. You also need to learn to follow your instincts, seeking seclusion when necessary and directing your energies into secret arts or meditation. You may also be called on to make sacrifices for other people at some stage during your life. This could mean directing your energies into looking after other people, in particular your spouse who could suffer from an illness.

Mars is in Libra

The planet Mars in the Sign of Libra indicates that you have a strong desire for diplomacy and justice, and these can be major themes in your life. You strive for harmonious relationships and justice in your own life, and yet they often seem elusive.

Perhaps this is because you're so sensitive to the injustices of the world that they take on larger proportions than they need, or perhaps it's simply that it's your role to notice and fight against wrongdoings. Either way you're often asked to take on the role of mediator and diplomat even though you may prefer to be pursuing your own creative pursuits rather than solving other people's problems. There are always plenty of people surrounding you, because you pursue friendships with many different people. On the whole you're a courteous person, but you do have a passionate side to your nature which can erupt in bursts of anger. You have a strong creative urge, which may be channelled into artistic or creative activities such as art, theatre, design, writing or dance. You have refined tastes, and seek to share these with other people. Astrologically speaking the planet Mars is considered to be in difficulty when in the Sign of Libra which probably explains why you experience some problems in your relationships with others.

Heraclitus, *Die Fragmente der Vorsokratiker* c540-480BC.

This planet is also linked with our ambitions, and how we approach the practical side of life. This planet often represents the professional side of our lives.

Saturn is in the 6th House

It's likely that you've to watch your health closely, making sure that you've a proper diet, and a good balance of physical exercise, rest and work. You're prone to ill-health through no fault of your own, sometimes missing out on opportunities for work and recreation as a result. It's possible that you suffered sickness as a child, which meant that you missed out on school or opportunities to play with other children. You've learnt over the years to seek advice from professional medical practitioners, and to follow their orders. This applies to both orthodox and alternative medical practitioners. You may also be interested in working in a medical field. You've trouble working in a regular office environment. It's not that you don't like work, but rather that you seem to experience delays and frustrations in the workplace. You also have trouble getting the co-operation of co-workers.

You're able to slowly and surely achieve your ambitions, although it's more likely to be later than earlier in life. Your lessons are in patience and self-reliance. Once you've mastered these traits then you can resolutely work towards your objectives. You've good reasoning faculties. You tend to be reserved rather than outgoing, although you're touchy and easily-angered when under pressure. Those who know you well can sometimes feel the brunt of your temper. The arts, interior decorating, hairdressing, beauty therapy, architecture or creative design may appeal. Whatever your choice of career, it's likely to reflect your ability to successfully combine work and creativity.

The Midheaven

The Midheaven is one of the important angles in a birth chart and is also known by astrologers as the MC or Medium Coeli. This angle tells us of our public life, our profession and social status. In other words how we are viewed by the public, how we want to be viewed by the public and what type of profession we are likely to choose. It's also important to note the house position of the ruling planet of your Midheaven for further information about your career as this can greatly influence the interpretation.

You're likely to succeed in any career that enables you to use your initiative and to take a prominent role, although you're more attracted to a profession that places you in the public eye. You've power, strength and leadership skills, although you do need to be wary of becoming overly ambitious and arrogant, which could lead to some humbling experiences. Examples of famous people with the same Midheaven include former Australian Prime Minister Bob Hawke, American entertainer Frank Sinatra, supermodel Claudia Schiffer, American first lady Jacqueline Kennedy Onassis and Princess Grace of Monaco.

Jupiter is Conjunct The Midheaven

The Gods are smiling on you in this lifetime. You have the planet of Kings placed prominently in your chart. One or both of your parents are considered to be of high character and may hold a prominent position in society. Your talents are encouraged and you are urged to explore many options in life. As you mature you are eager to explore the world, and may travel, study or do an apprenticeship that leads you into a rewarding profession. recognition for your talents. If you prefer to become a parent early in life then you are likely to meet a suitable marriage partner, someone who supports and enhances your life, enabling you to pursue your goals. Your life is blessed. When one door closes, another one opens with ease. You may need to temper some of your good luck with a modicum of restraint, learning when to hold back and when to move forward. Otherwise you need only contemplate where you want to spread your good fortune for the benefit of yourself and other people.

You've high ideals and the creative energy to implement changes. You may be curious about metaphysical matters, science and global affairs.

Samuel Smiles, *Self-Help* 1859.

Pluto

The planet Pluto challenges us to transform our lives by clearing out our old habits to make way for the new, more rewarding ways of living. The process isn't necessarily an easy one, as most of us cling tenaciously to the comfort offered by habitual patterns, and are rather scared of new paths. PURPOSE AND JOY

*He who binds to himself a joy
Doth the winged life destroy
But he who kisses the joy as it flies
Lives in Eternity's sunrise
William Blake, MS Note-book.*

A sense of purpose can help us overcome the most onerous difficulties in our lives, by taking the focus away from our failings and problems, and shining the light on our strengths and talents. By concentrating on our purpose we can distract ourselves from our troubles, and maintain the forward momentum of our lives. A sense of purpose can also lead to feelings of happiness and joy. Ancient astrologers believed that a person could either identify with their human body and human life, or could focus on a spiritual life. A rewarding spiritual life can help ease human pain and suffering, and inject joy into every day life. A sense of purpose can assist the process of transferring our identification from our human selves to the spiritual sides of our nature, and one of the greatest gifts of astrology is to help us determine our purpose.

The North Node

The North Node and South Node form an axis in astrology, which is said to represent one's destiny or spiritual quest in life. This axis is also linked with our purpose. The North Node points to a key lesson in our lives. It represents new experiences towards which we must aim during this life. We have already learnt the skills of its opposite point, the South Node, in the past. Now we must grow and stretch ourselves through the North Node.

The North Node is in the 6th House

Your North Node is in the 6th House and your South Node is in the 12th House of your birth chart indicating a quest to learn responsibility. You need to let go of the desire to escape into fantasy and develop a productive new life.

The North Node is in Taurus

Your nodal axis has the North Node in Taurus and the South Node in the Sign of Scorpio denoting that yours is a quest to overcome distrust of change, to develop creative outlets for your intense emotions and to avoid hitting out at loved ones. These attributes plague you in this life because of suffering and traumatic endings in the past which have left you with deep emotional wounds and a feeling of being cheated. In learning this life's lesson of trusting the process of change you will develop a newfound sense of peace and stability.

The South Node is Trine The Sun

The South Node and the Sun are combining in a way that is inhibiting you from expressing your true potential. You're being challenged to fully express yourself with integrity and with respect for other people's rights. Perhaps you've a tendency to overpower other people, and now you need to do find the right blend of asserting your own rights and listening to other people, in order that you achieve your purpose. You would do well to remember the adage, "There's no time like the present", as you may have a tendency to avoid facing problems and obstacles that stand in the path of your success.

The Ascendant

The Ascendant, or Rising Sign as it's sometimes called, is a key to discovering our purpose. Ancient astrologers believed that the Ascendant depicted our primary motivation as individuals. Some believed that it was one of the links to discovering what makes a person happy. When we're accomplishing our primary motivation then we're happy. The more modern Esoteric astrologers believe that this sensitive chart point reveals our soul's purpose. When we're carrying out our soul's purpose then we're joyful. They believe that acceptance of our purpose, or fate, can help us achieve success and satisfaction, and that meditation on the qualities of the Ascendant can help us focus on our life's purpose.

The Ascendant is in Scorpio

The Sign of Scorpio is considered to be "feminine" by Ancient astrologers suggesting that you're more likely to wait until you feel comfortable before pursuing your purpose. You're also likely to depend on other people to take the initiative. Scorpio is also a Fixed Sign denoting fixity of purpose, resolution, self-reliance and independence.

You're shrewd, resourceful, perceptive, secretive, proud, and reserved. You're fated to experience some battles in life, resulting in possible crises in your emotional state, your physical health or your public status. The key to achieving your true purpose is to act with integrity at all times. You've a strong will, which is best applied to achieving positive results rather than to the thoughts of jealousy and revenge, which linger in the back of your mind. The insights that you gain along life's treacherous path are invaluable, and can be shared with others in a way that benefits all concerned..

In Esoteric astrology the Sign of Scorpio is linked with regenerative power. Like the phoenix you've the ability to rise from the ashes in a transformed state. Your purpose is connected to shedding spiritual light on dark secrets and taboo subjects, and to sharing your spiritual insights with other people.
